

ABOUT THIS REPORT

We are pleased to present our third Sustainability Report (the “Report”), which covers the reporting period from 1 January 2019 to 31 December 2020. The Report highlights our approach to and performance in sustainability throughout our operations in Hong Kong and Mainland China, with an emphasis on Hong Kong.

The scope of the Report includes our three core business locations, namely our Hong Kong Division, Green Island Cement Company Limited (“GICL”) located in Tap Shek Kok, the Guangdong GITIC Green Island Cement Company Limited (“GGGIC”) and Green Island Cement (Yunfu) Company Limited (“GICYF”), as well as Yunfu Xiangli Cement Company Limited (“XiangLi”), a cement grinding plant and jetty facility in Yunfu which we acquired in 2018. In this Report, we also provide an overview of our company, our core values and commitment to sustainability. In addition, we have included our approach to managing various impacts from our operations and production, as well as initiatives regarding employees, suppliers, and the community.

The Report has been developed referencing locally and globally recognized reporting frameworks, namely the Hong Kong Stock Exchange’s (“HKEx”) Appendix 27 of the Main Board Listing Rules (“HKEx ESG Guide”). In addition, we have referenced select disclosures from the Global Reporting Initiative (“GRI”) Standards framework in an effort to better align our non-financial reporting with global Environment, Social and Governance (“ESG”) indicators. The Content Index of this report enables readers to cross-reference our disclosures.

WE VALUE YOUR FEEDBACK

Your feedback is valuable to our continuous improvement. We welcome feedback and questions on this Report and encourage you to share any queries or comments with us at sustainability@gich.com.hk.
